Y., April 20.—The assembly today passed the Frawley boxing bill permitting 15-minute bouts of boxing by amateurs with 8-ounce gloves under the rules and regulations of the Amateur Athletic union of the United States or any domestic amateur athletic association now incorporated and under the sanction of the union. The bill prescribed that such bouts must be between registered amateurs must not exceed 15 minutes in length nor be fought more than once in any 24 hours between the same two participants, and must be for medals or prizes other than money. The bill has passed the senate and now goes to the governor for his signature.

J. P. Morgan Sees Italian King.

Rome, April 20.—King Victor Emanuel today received in private audience J. Pierpont Morgan who thanked the king warmly for the grand cordon of Saints Maurice and Lazarus, which he wrote. The king was most cordial in his manner toward Mr. Morgan and made the American financier sit next to him. He expressed his personal gratification at the generous act of Mr. Morgan in returning to Ascoli, the cope stolen from the cathedral there and sold to him by an unknown person. The conversation which was carried on in English lasted half an hour. Later the king received United States Senator Nelson W. Aldrich of Rhode Island.

Richmond, Va., April 20.—Thinking an attempt to rob the bank was being made, Dr. Lawrence Anderson Bragg, a druggist who has rooms in the Citizens' National bank building at Covington, Va., early today shot in the direction of the noise, killing Dr. Alexander Nelson, of the staff of the Western State hospital, who had arrived on a late train to visit his brother, Attorney George Nelson. In endeavoring to reach his brother's room near the bank, Dr. Nelson lost his way and was at the entrance of the bank building when killed.

Primrose Day Is Observed.

London, April 20.—Primrose day was observed today with undiminished zeal. Lord Beaconsfield statue was decorated on a generous scale. Asheville, N. C., April 20.—As a result of the fatal shooting of Butler Maxwell, negro, on Mountain street, this city early Sunday morning, Walter Parker and Mac Brooks, two white men, residents of the Bent Creek district, near Asheville, were arrested and after a hearing before the coroner's jury were remanded for the next term of court, without bail, to stand trial for the crime.

A Thousand Dollars' Worth of Good.

"I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain," says A. H. Thurman, a well known coal operator of Buffalo, O. "I got no relief from medicine until I began taking Foley's Kidney Cure; then the result was surprising. A few doses started the brick-dust-like substance and now I have no pain across my kidneys and I feel like a new man. It has done me \$100 worth of good." Foley's Kidney Cure will cure every form of kidney or bladder disease. Sold by J. W. McCollum & Co.

SHAM ARMOR.

Story of a Once Famous Vessel in the Russian Navy.

Among the anecdotes told by Colonel F. A. Wellesley in his book, "With the Russians in Peace and War," is one concerning a once famous vessel of the Russian navy. When the ironclad Peter the Great, from which so much was expected, was in course of construction the deputy acting minister of marine, on being suddenly asked by the czar what progress the ship in question was making, lost his head and replied that she would be ready for sea in three weeks. "The emperor expressed great satisfaction at the news and said that he would shortly inspect the vessel at Cronstadt. It so happened, however, that, far from being ready for sea, the ship was still in dock and that her armor plates, which were being rolled in England, had not even been delivered. In view of the emperor's threatened visit all useful work on board the ship was stopped, and hundreds of men were set to work night and day at the erection of cabins, the covering of the ship with sham armor, the erection of wooden turrets and the like.

"When the Duke of Edinburgh came to Russia I told his royal highness this story," continues Colonel Wellesley, "which he was most reluctant to believe. I told the duke, however, that he would soon have an opportunity of judging for himself at a naval review, and I predicted that, as he was a naval officer and therefore sure to detect anything wrong, some excuse would be made to prevent his going on board that particular ship. The duke expressed to a Russian naval officer his desire to visit that ship, but objections were raised to his doing so.

"Then the emperor, noticing that something was wrong, ordered a boat to be lowered immediately to take his royal highness on board. After the review the duke told me that I was wrong about the turrets being made of wood, as he had placed his hand on one of them, and it was made of canvas and yielded to the pressure of his fingers."

Frightful Suffering Relieved.

Suffering frightfully from the violent poisons of undigested food, C. G. Grayson of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at all drug stores, guaranteed.

A SWIMMING HORSE.

The Proper Way to Ride the Animal in the Water.

A military journal of Paris gives this account of the way a horse should not be ridden and of the way he should be ridden in swimming a stream:

To begin with, it must not be supposed that a horse always swims naturally and with ease the moment he is off his feet in the water. The animal under such circumstances has but one notion—to keep his head out of the water and to lift his shoulders as high as possible.

In doing this his hind quarters sink, and he finds himself almost standing upon his tail, or at least in a position three-quarters erect.

In such a position, if the rider draws upon the reins or throws his body back in the least, the animal's hind quarters will sink more and more, his body will take a vertical position, and, beating the water uselessly with his forefeet, he will finally sink.

As soon as the horse gets off his feet in the water let the rider grasp a handful of the animal's mane, leaning at the same time well forward upon his shoulders, but without touching the horse's head. The rider's knees should be pressed tightly to the horse's sides; otherwise he is likely to be swept off by the water.

This is the only position which will enable a man to remain in the saddle and the horse to swim at the same time.

The reins must be held loosely and each well to one side. If the horse is to be guided in the water give the loose rein a little jerk in the direction desired. But it is in the highest degree important never to pull on the reins.
